

AMBHE FERRO

METAL PROCESSORS PVT. LTD.

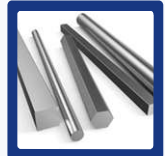

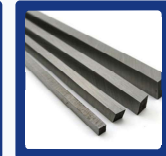

*4 Decades of Rolling to Spec.
Every Heat. Every Bar.*

AN ISO 9001:2015 CERTIFIED COMPANY

A TRUSTED MANUFACTURER OF

Precision Steel Bars

- Rounds
- Hexagons
- Bright Bars
- Squares

Sourcing Steel Bars Shouldn't Be This Hard.

Common frustrations we hear from procurement teams every day.

Long Lead Times

Production delays and missed deadlines and excess inventory in hand

Inconsistent Quality

Rework, rejections, and customer complaints between lots

High MOQs

Blocked working capital and excess inventory you don't need

No Traceability

Failed audits and compliance risk without heat-number records

Multiple Vendors

Operational complexity coordinating rolling and bright bar suppliers

We built Ambhe Ferro to solve exactly these problems.

About Ambhe Ferro

Precision-rolled steel bars, trusted since 1987.

Founded in 1987, Ambhe Ferro Metal Processors Pvt. Ltd. is a specialist manufacturer of precision-rolled industrial steel bars — Rounds, Hexagons, Squares, and Bright Bars — serving demanding industries across India and abroad.

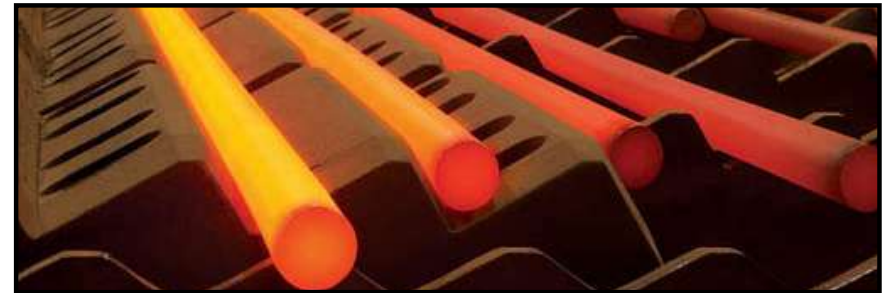

From our two manufacturing units at MIDC Murbad, Maharashtra, we combine **hot rolling** and **bright bar** processing under one operational umbrella. Our location offers direct road connectivity to JNPT Port, making us a reliable partner for both domestic OEMs and international buyers sourcing from India.

What We Manufacture

Wide size range across all standard sections.

Rounds

Hexagons

Squares

Bright Bars

SECTION	SIZE RANGE	STANDARD LENGTH	PRODUCTION STATUS
Rounds	23.5 mm – 80 mm (40+ sizes)	5.5 m - 6 m	Regular production
Hexagons	23.5 mm – 52.5 mm (11 sizes)	5.5 m - 6 m	Regular production
Bright Rounds	22 mm – 63.5 mm	Centre Cut or Full Length	Regular production
Bright Hexagons	22 mm – 50 mm	Centre Cut or Full Length	Regular production
Squares	22 mm, 28 mm	5.5 m - 6 m	On order

Non-standard sizes can be developed for regular requirements. **MOQ: 5000 kg per size-grade combination.**

Grades We Roll — Matched to Your Application

From general engineering to high-strength alloy applications.

GRADE CATEGORY	GRADES AVAILABLE	TYPICAL APPLICATIONS
Mild Steel	IS 2062, AISI 1018	General engineering, structural components
Carbon Steel	EN8D, ST52.3, A105, S45, S355, 1541, 35C8, 150M19	Shafts, flanges, pressure parts
Free Cutting Steel	EN1A, EN1A(Pb), EN8M, EN8DM, 1141	Screw machine components, fasteners, high-volume machining
Chrome Steel	16MnCr5, 20MnCr5, 40Cr4B, 41Cr4	Gears, case-hardened parts, bearings
Chrome Moly Steel	4140, EN19, 42CrMo4	High-strength shafts, crankshafts, hydraulic rods

INTERNATIONAL GRADE EQUIVALENTS

AISI • ASTM • DIN • JIS • EN — ready for global buyer specifications.

Trusted Across Precision Industries

Consistency, machinability, and performance — across critical applications.

1

Fastener & Hydraulics

Bolts, studs, fittings, hydraulic components

2

Engineering & Capital Goods

Machine components, industrial equipment

3

Construction & Infrastructure

Structural applications, heavy fabrication

4

Automotive

Shafts, axles, gears, transmission parts

5

Aerospace

Precision components to tight specifications

6

Bright Bar Processors

Quality VD-grade feedstock for downstream drawing

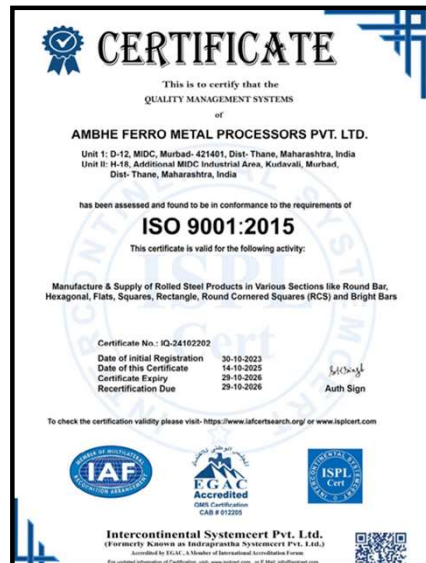

Supplying Tier-1 OEMs • Jobwork for leading steel majors • Pan-India stockist & fabricator network

Quality You Can Measure — End-to-End

In-house testing from raw material to finished bar.

IN-HOUSE TESTING FACILITIES

- Spectrometer (chemical composition)
- UTN-60 Universal Testing Machine
- Metallurgical Microscope with Image Analyser
- Digital Brinell Hardness Tester
- Rockwell Hardness Tester
- Digital Ultrasonic Testing Machine
- Magnetic Particle Inspection
- Double Disc Polishing Machine
- Jominy Apparatus (hardenability)

CERTIFICATIONS & RECOGNITION

ISO 9001:2015 CERTIFIED

Quality Management Systems certification by Intercontinental Systemcert Pvt. Ltd. (EGAC-accredited).

BIS LICENSEE — IS 13352:1992

All India First Licensee. Awarded 'Award of Honour' by the Bureau of Indian Standards (Western Regional Office, Mumbai) on World Standards Day 2025.

We also have BIS certificate for IS2062, IS7283, IS9550, IS13352

MTC WITH EVERY LOT

Mill Test Certificate covering chemical composition, mechanical properties, and dimensional compliance.

Why Buyers Choose Ambhe Ferro

How we address every common procurement challenge.

COMMON PROCUREMENT CHALLENGE	THE AMBHE FERRO ADVANTAGE
Non-availability of sizes and grades	Wide size & grade range with planned production schedules
High minimum order constraints	Practical MOQ of 5 MT per size-grade combination
Uncertain or delayed deliveries	Reliable scheduling with on-time dispatch commitment
Lack of material traceability	Full traceability — raw material heat number to finished bar
Inconsistent quality between lots	Strict in-house quality control
Coordinating multiple vendors	Rolling and bright bar processing under one roof

Strategic Location

Ready for India. Ready for the World.

Full export capability from Mumbai — India's busiest port corridor.

EXPORT CAPABILITIES

- **90 km from JNPT Port**
India's largest container port — quick container loading
- **Seaworthy packing**
Steel strapping, wooden bundles, moisture protection
- **Export documentation**
CoC, MTC, Certificate of Origin, packing list
- **International grade equivalents**
Supplied to buyer specification (ASTM/DIN/JIS/EN)
- **Flexible payment terms**
Advance, LC at sight — to be negotiated

WHAT WE OFFER INTERNATIONAL BUYERS

- ✓ Container loading at factory or at JNPT CFS
- ✓ Lot-to-lot consistency
- ✓ Third-party inspection accepted (SGS / BV / TÜV / Intertek)
- ✓ Responsive communication across time zones
- ✓ IEC Registered | RCMC holder

FOR EXPORT ENQUIRIES

Please share: *Grade | Size | Quantity | Destination Port | Delivery Incoterm (FOB/CIF/CFR)*

Ready to Source?

Let's Talk.

We respond to every enquiry within 24 working hours.

WHAT TO INCLUDE IN YOUR RFQ

Product	Round / Hexagon / Bright Bar / etc.
Grade	e.g., EN1A, EN8D, 42CrMo4
Size	Diameter / Section in mm
Quantity	MT (minimum 5 MT)
Delivery Location	City / Port
Required By	Target dispatch date
Special Requirements	MTC, third-party inspection, packing
